

# **Faculty's Role in Shared Governance**

---

**College of Medicine  
Faculty Council Meeting  
June 3, 2008**

# Suggested qualities for leadership

- Respect for faculty - understanding of the needs of both clinicians and basic scientists
- Honesty and Integrity
- Capacity to balance decisiveness and flexibility
- Eagerness to listen and engage in shared governance

# Suggested qualities for leadership

- Organizational and communication skills
- Stability
- Lead by example
- Forward thinking

# **Suggested qualities for leadership**

Unite the efforts of physicians, nurses, and other healthcare personnel and breakdown the barriers between the medical school and Shands Hospital in order to create a unified system

# Suggested qualities for leadership

- Extensive administrative experience
- Facilitate cutting edge scientific research
- Untarnished ethical reputation as a respected role model in the areas of clinical care and teaching, and research
